

A high-contrast, black and white photograph of palm fronds. The fronds are long, slender, and arranged in a fan-like pattern, creating a series of parallel lines that sweep across the frame. The lighting is dramatic, with bright highlights on the edges of the fronds and deep shadows in the background, emphasizing the texture and form of the leaves. The word "DIPHANO" is centered in the middle of the image in a clean, white, sans-serif font.

functional cosiness

Diphano furniture has a luxurious look, without the price being equally high. The collections are scalable to fit every outdoor setting and every mood. From functional bistro tables and chairs for large hotel settings to cosy, unique sofa sets for your personal garden, there's a solution for every outdoor project. No need to worry about maintenance, durability and functionality: this comes default with every Diphano piece.

nature's green

If we could, we would spend most of our time outdoors. Dinner parties, reading a book in a lounge chair or having breakfast. Nature makes every experience more intense, and even more so if you can share it with loved ones. Diphano outdoor furniture is made by and for people that are passionate about what they do. They have a clear goal in life and dare to be unique. Diphano lets you focus on the outdoor cosiness, providing high quality, durable furniture in different moods and sizes.

Ray

The Ray collection is timeless, thanks to the craftly woven ropes in combination with the alu frame. Next to the existing dining armchairs and side chairs, the collection now also includes a luxury lounge chair and 2-seater. The elegant design of the chairs stays the same, adding deep seats with thick seat and back cushions. A range of coffee tables with options in powdercoated alu, teak, and ceramics completes the collection.

Switch Rope

Switch Rope takes indoor cosiness outside. Comfy cushions generously fill up the minimalistic frameworks, which are playfully entwined by thick outdoor ropes. Place Switch Rope next to modern architecture or in a rural environment: the seats always invite you to sink in deeply and bathe in the sun.

maintenance & care

care products

Our outdoor furniture is heavily resistant against weathering. But long outdoor exposure can leave its marks. So regular maintenance with our care products is advised. However, our care products are quick and easy to use. This means a small effort will keep your furniture in a mint state for a long time.

Glass, ceramic, Trespa® cleaner & polisher

Makes hard surfaces repellent to water, moisture and dirt. Cleans and removes stains without scratching using the included cloth.

Teak stain protector

Saturates teak to make it repellent to water and moisture. Helps to prevent stains (e.g. wine stains, barbecue stains...). Easy to apply. Transparent finishing.

protective covers

Safeguard your outdoor furniture with our protective covers. Customized for each Diphano piece, these zip-off covers are remarkably easy in use. There is no need to remove the cushions: our protective covers, made from sophisticated grey waterproof fabric, are available for both single items of furniture and entire set-ups.

powdercoated aluminium

properties

A fluidised powder coating is applied to the aluminium structure by electrostatic spray. For maximum solidity and resistance of the powder coating, the material is heated at a temperature between 160°C (320°F) and 210°C (410°F) (T° according to the type of powder).

The material is suited for both indoor and outdoor use.

maintenance

This material is easy to clean and maintain. Simply brush away loose dirt, rinse and clean with a mild, lukewarm soapy solution. Rinse thoroughly and pat dry with a cloth.

teak

properties

- superior quality teak wood (VINIR & HARA) aged 60 to 80 years, sourced from ecological plantations
- great stability under the effect of UV radiation, chlorine and sea water
- easy to clean, various specific treatments possible (see p. 298)
- for outdoor and indoor use
- 100% recyclable

maintenance

Simply brush away loose dirt, rinse, and clean with a mild, lukewarm soapy solution. Rinse thoroughly and pat dry with a cloth. If the teak is 100% dry and free of dust, you can apply our Teak stain protector to make it repellent to water and moisture.

Trespa® (hpl)

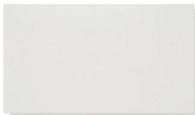

properties

Trespa® is a flat thermo hardening resin-based plate made by compressing wood fibers at high pressure and high temperature (HPL - High Pressure Laminate). Thanks to the patented technology, the surface becomes durable, scratch free and moisture resistant. Diphano uses a 13mm thickness to guarantee optimal strength in hospitality projects. All Trespa table tops have a black border and are perfect for both indoor and outdoor use.

maintenance

Simply brush away loose dirt, rinse, and clean with a mild, lukewarm soapy solution or Trespa® cleaner. Rinse thoroughly and pat dry with a cloth.

ceramic

properties

Diphano ceramic table tops are composed of sand, clay and natural stone components, heated at 1200° C and cooled down and glued together with a resin of polyurethane and fibre glass. This results in the following characteristics:

- hygienic surface
- colourproof
- resistant to fire and high temperatures
- impermeability
- resistant to bending, scratching and chemical products
- environment friendly

maintenance

Ceramics are easy to clean. Simply brush away loose dirt, rinse, and clean with a mild, lukewarm soapy solution or Ceramic cleaner. Rinse thoroughly and pat dry with a cloth.

A man in a white shirt and light-colored pants is leaning over a lounge chair on a rooftop terrace. The terrace has a wooden deck, a glass railing, and several lounge chairs with dark cushions. Two closed patio umbrellas are also visible. In the background, there is a lush green hill with several wind turbines on top. The sky is a soft blue with some wispy clouds. The overall scene is bathed in the warm, golden light of late afternoon or early morning.
